### DAY'S RUGBY SLATE

ree. Rev. A. F. Barr; umpire,

referees study the rule book more carefully.  
Mr. Patterson of Queen's introduced an  
amendment to the rules, whereby if a team  
made ten yards in any of the three scrim-  
mages and then lost ground, it should be  
allowed to retain possession of the ball, in  
view of the first gain. Mr. Martin of Mc-  
Gill opposed the change. The proposal of  
Queen's, however, was favorably received  
by the Varsity representatives, and after  
a thorough discussion was adopted. Pre-  
sident Baldwin thought that the touch-line  
rule should be revised, making every throw-  
in count a scrummage, in order to prevent  
a team when near an opponent's goal line  
from running into touch on the third scrim-  
mage in order to hold the ball and not  
kick. This proposal will be considered at  
the meeting next spring. Several additions  
were made to the rules concerning referees  
and umpires, in view of the system of  
downs. Queen's proposed that the um-  
pire should declare whether a team has  
made or lost the necessary distance in  
three successive downs. This did not meet  
with favor, it being held that the umpire  
had enough to do.

The eligibility rule was changed and

winter. He is said to be a du
